

The Progress Board

1

Business Hypotheses

List the hypotheses that need to be true for your idea to work. Prioritize the highest risk hypotheses that could kill your business idea.

Experiment: Backlog

The experiments that you intend to run.

Experiment: Design

The experiments that are being planned, designed, or built.

Experiment: In Progress

The experiments that are currently running and collecting data.

Learn

The experiments that were executed, collected data, and are ready to be analyzed.

2

3

Decide

Evidence Supports Hypothesis

Continue testing and collect stronger evidence for same hypothesis, or test next critical hypothesis.

Evidence Doesn't Support Hypothesis

Kill your idea, pivot your design, or continue testing to collect stronger evidence before making a decision.

New Insights

Continue testing to collect stronger evidence or update the design of your idea.

Unclear Insights

Design another experiment, and learn more before making a decision.

4

Progress

Progress you made from unproven idea to validate business model.
