

Map the environmental forces that impact your business model with the help of the Business Model Space Card Deck. Each card contains trigger questions to help you identify the forces that might influence your business model.

To do this exercise:

- Put aside at least two hours to do this exercise.
- Take your existing Business Model Canvas, or print a large [Business Model Canvas](#), and stick it to a wall. Make sure you have some free space around the Business Model Canvas.
- Grab a pack of sticky notes.
- Print or download the Business Model Space Card Deck and follow the instructions.
- By the end of this exercise, you should have a visual map of the external forces influencing your business model. Make sure you take a picture of your exercise to keep for your records.
