[Interview Observer](#)

[Scorecard](#)

Take some time to reflect on the interview questions you created to learn more about your customer's jobs, pains, and gains.

To do this exercise:

- Go back to the six interview questions you created in today's lesson.
- Download the PPT on the left.
- Classify each of your questions into one of the four categories.
- Ask yourself, "How can I improve these questions, so they focus more on facts and problems?"
