

STEP 6 OF 6

Exercise: Complete your Value Map

 10 min

STEP DOWNLOADS

[Value Map](#)[Pain Relievers Trigger
Questions](#)[Gain Creators Trigger
Questions](#)

Now it's your turn to map out how your products and services create customer value.

To do this exercise:

- Retrieve your Customer Profile from the previous lesson.
- Download the [Value Map](#) and place it on the left-hand side of the Customer Profile.
- Select a bundle of products and services targeted at your customer segment. Start filling out the Value Map by first listing the bundle of products and services around which your value proposition is built.
- Now make explicit how those products and services relieve customer pains and create customer gains. Use the trigger questions for [pain relievers](#) and [gain creators](#) if necessary.
