

Assess your value propositions against the 10 characteristics described in the previous video.

To do this exercise:

1. Download the [10 Questions to Assess your Value Proposition](#).
2. Grab a pen and paper.
3. Select the value proposition that you have been working on in the past exercises.
4. For each question of the checklist, give the value proposition a score ranging from zero (poorly done) to 10 (brilliantly done).
5. As you add up the numbers, think about ways to improve your value proposition score.
