

Identify opportunities to create value for customers by brainstorming six questions about your customer's jobs-to-be-done.

To do this exercise:

- Download the [Six Ways to Innovate from the Customer Profile](#) worksheet on the left.
- Retrieve your Value Proposition Canvas and focus on the jobs-to-be-done in the Customer Profile.
- For each of the customer jobs, go through the six questions and brainstorm alternatives. Make sure to capture your ideas.
- Ask yourself, "What impact will my new jobs-to-be-done have on my value proposition?"
